Access

The cottage has a combination key safe just to the right of the front door. To release keys, open the cover, enter the ***combination number that we are sending you separately*** and then you will be able to press down the small black catch to open the key safe.

When you have removed the keys please close the compartment, scramble the combination and close the waterproof cover.

NB. There is no outside light attached to the cottage, but there are street lamps. I would advise if arriving after dark to ensure you have a torch to see the key safe numbers.

The code will be sent to you separately, but if you forget to bring it with you / forget it, call or text Matthew on 07769692559.

There will only be one set of keys supplied so please keep them safe.

PLEASE ALWAYS REMEMBER TO SCRAMBLE THE CODE AFTER USE TO PREVENT UNAUTHORISED ACCESS.
